

Always use the predefined six column grid. Columns can be combined or left unused, depending on the content that needs to be laid out.

Always use the predefined baseline grid. All text elements should align to this grid. It is constructed with 5 mm increments, to facilitate easy and correct alignment of all elements on the page. Please use the predefined paragraph and character styles.

SOLUTIONS

Always use the linked Illustrator file to ensure correct alignment and colour use.

# Valory Maximizing productivity

with an efficient,  
modular x-ray room

Excellence means doing more than just ticking boxes. The Valory Digital Radiography room aims to exceed your expectations. Its simple design offers you functionality that goes far beyond the usual 'basics'. Balancing reliability and productivity in a modern, modular and, above all, easy-to-use design, the Valory DR room provides the true value you need, combined with legendary Musica image quality.
